

# Role of the EU STEM Coalition

# What is the EU STEM Coalition?

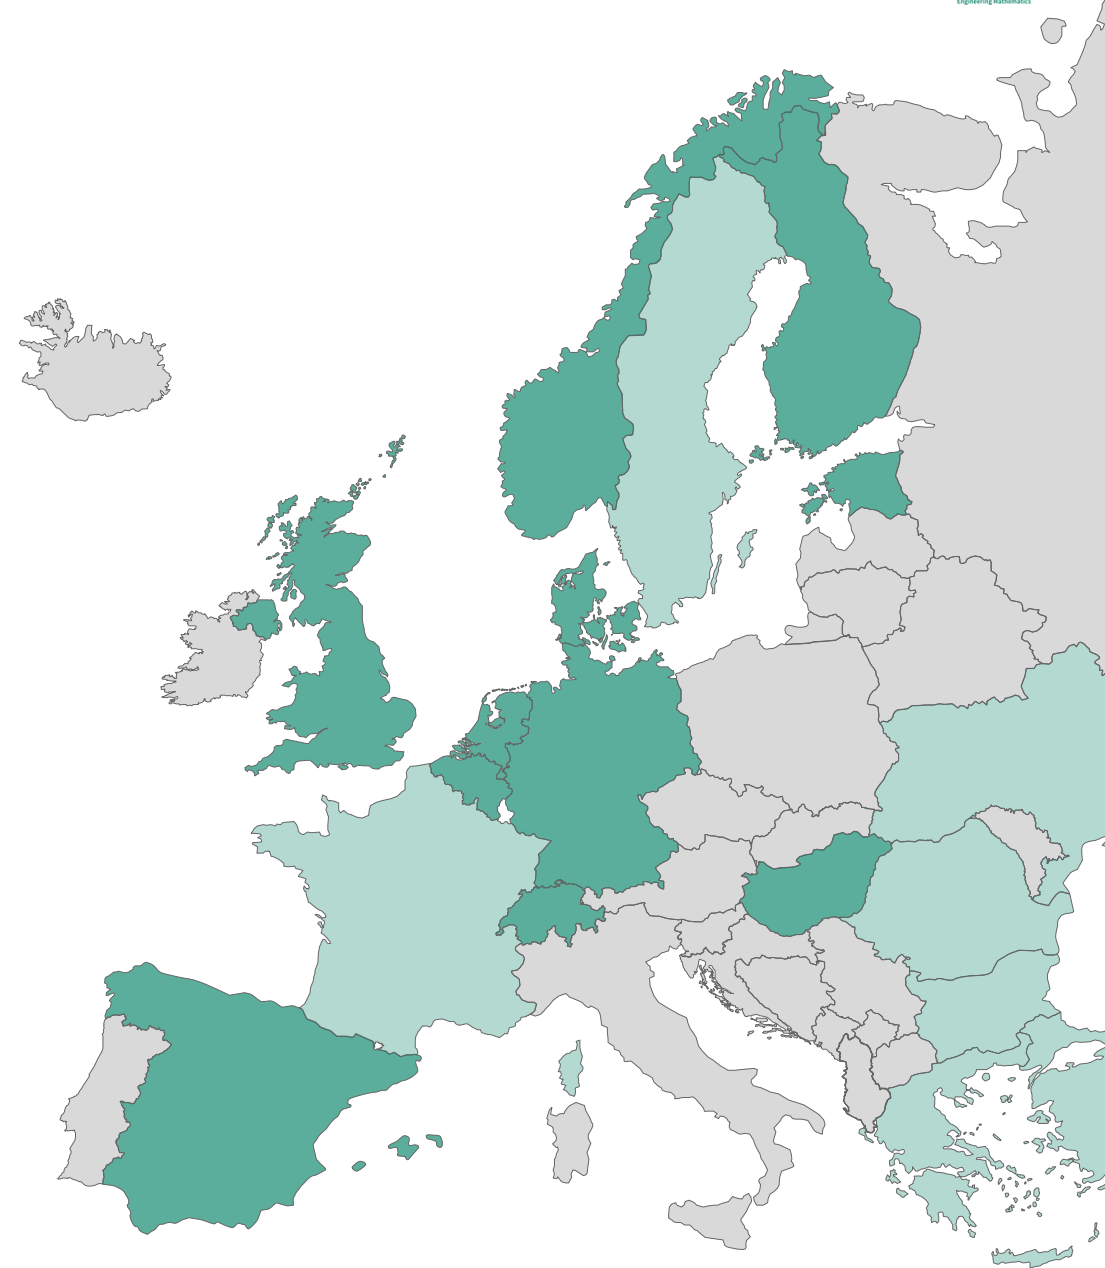

The EU STEM Coalition is a network of national 'STEM platforms focused on reducing skills mismatch between STEM education and labour market

- Best practice sharing
- Direct support

# Supported by the European Commission

*“The Commission supports the EU STEM Coalition, which will further its mandate in 2019-2022 to cover STEAM (science, technology, engineering, arts and mathematics) education and share best practices for the establishment of national STEM strategies across Member States. The Coalition gathers the most important actors in different regions on the field of STEM education, including businesses, local governments and higher education institutions.”*

# Best practices relevant for Bretagne

- Jet-Net (Netherlands)
- Tektanken (Denmark)
- STEAMsare (Basque Country)
  
- Danish Technology Pact
- European Institute for Innovation and Technology
